65/12 PROGRESS ON ACTION TAKEN

Island Plan Core Strategy housing figures and Ryde

Following discussions with IWC Officers the TC requested a further briefing on the evidence that underpins the 2100 units set out in Policy SP2 of the Island Plan Core Strategy. The Planning Policy Officers have given this information and said how this figure is affected by the number of approval granted between 1/4/11 and 16/3/12. The core strategy provides for 8,320 dwellings across the Island in the period 2011 – 2027, of which 2100 have been identified for the area covered by the Ryde Area Action Plan. It was reported that the Planning Department would be considering possible housing sites within the Ryde Area Action Plan Area during the next 3 months.

Mr Ollie Boulter, Team Leader, IWC Planning Policy, Conservation and Design had agreed to speak to the Committee at its next meeting on 15<sup>th</sup> May and to answer any questions on the Core Strategy housing figures and Ryde and the Committee received and agreed suggested questions to ask him. They would focus not so much

on the target of 2,100 dwellings but more on what kind, who for, where, how, what is affordable and their effect on flooding.

It was also reported that the Ryde Area Action Plan could possibly also include land outside the Town Council Boundary, such as in the areas of Havenstreet, Fishbourne, Nettlestone and Seaview.

Councillor Conrad again declared an interest in the Core Strategy as it may affect land in his ownership.

#### Future Tree Preservation Order for the Quarr A.O.N.B.

The Committee noted that the IWC Tree Officer, Mr Willis, would be making an Order to protect an area of Woodland at the Quarr Area of Outstanding Natural Beauty. Progress on this would be checked.

#### Monkton Mead Brook and Beach Outfall

Following the recent period of heavy rain and the completion of improvement works to the beach outfall by the Environment Agency, it was decided that the effectiveness of the improvements should be monitored and raised later with the Agency if necessary.

### 66/12 MEMBERS' QUESTIONS

Councillor Graham Pearce asked if a decision had been made on application P/01563/11 for 6, Monkton Street.

### 67/12 PLANNING APPLICATIONS

#### 1. P/00433/12 – LBC/15453G – ( N.W. Ward)

18, Gloucester House, St. Thomas Street.

Alterations to existing wall to form new double door opening between kitchen and dining room.

69/12 HIGHWAYS

Dropped Crossings for Disabled Users – Binstead Ward.

Councillor Ian Stephens had asked that the Committee should give consideration to the lack of dropped pedestrian crossings for disabled persons between Broadway Crescent and Newnham Road. Mr P. Taylor, a mobility scooter user, had complained to Rebecca Tuck, (IWC Integrated Transport Officer) who has told him that all requests for dropped crossings will go on a waiting list and be installed as and when the budget allows. Councillor Stephens asked if there was a strategic policy for the siting of dropped kerbs and requested the Committee to add its support to the provision of additional dropped pedestrian crossings in this area.

The Committee agreed that just to put requests on a list was not good enough and asked what criteria was used in determining their need and siting .

Councillor David Knowles had raised the need for dropped crossings in the area of St Johns Road and Oakfield High Street and had been told that although there was no specific budget for dropped crossings in the 2012/2013 capital programme they will consider introducing routes of dropped crossings to be funded by the minor traffic management budget.

**RESOLVED that it is felt that the disabled users of wheelchairs are the best people to say where crossing are needed and how they should get from 'A to B'**

**and that as the IWC Highways Office has no real plan for this provision it should liaise with the wheelchair users and ask them about routes. The Committee considers that the planning of dropped crossings and routes will greatly assist the disabled with their freedom of movement .**
