The Committee and the Quarr Road Users Association have been concerned at the effect on this area by past development, woodland management and current planning applications. The IW AONB was designated in 1963 and covers approximately half the Island. The main purpose of the designation is the conservation and enhancement of the natural beauty of the area. Secondary to this is the promotion and enjoyment of the area and ensuring the needs of its community and land based industries can be met where these do not compromise its primary purpose.

**8. HIGHWAYS – ASHEY ROAD**

At the last meeting a copy of an email to Havenstreet and Asheys PC from Highways was considered. It showed a proposal to improve highway safety at Smallbrook Roundabout and to include it in the draft Integrated Transport Capital Programme for the 2012/13 financial year. There were a number of options for this scheme and the Committee felt generally that any such scheme would be an improvement and noted the proposal.

Since then another copy of an email to Havenstreet and Asheys PC from Highways regarding the Integrated Transport Capital Programme for 2012/13 has been received. This time it relates to a proposal to include in the scheme the widening of two lengths of the Asheys Road to 6.5 metres and whilst it may not be included in the current year, it is a consultation to gauge the degree of local support for the proposal.
